

Cool Senior Portrait Background

Camera...Canon 20D
 Lens...Tamron 28-200 F4-5.6
 Camera mode...manual
 Flash..Novatron...F11
 Lens Aperture...F11
 Shutter speed 125
 ISO...100
 Image format...Canon Raw converted to jpg
 Focal Length 120mm
 Tripod...no
 Time of day...NA
 Artwork applied...Vignette
 Lab output...20x24

Notes:

This is one of my favorite senior backgrounds, yet cost less than \$30 to build.
 Start by using a product called "Liquid Nails" to glue soda cans to a 5/8ths sheet of plywood. It'll take a bunch. Then paint the can bottoms flat black. Use a colored gel on your background light to turn the cans any color you wish. Great for matching up to subjects clothing or school colors.

Coke cans glued to plywood
