 ISO....100
 Image format...Canon Raw converted to jpg
 Focal Length 100mm
 Tripod...no
 Time of day...NA
 Artwork applied...none
 Lab output....8x10, 11x14, wallets

Notes:

Kicker and hairlight are firing at F5.6, considerably lower than the main light.
 Background light (Novatron 300W monolight), has a grid spot attachment that focuses the beam into a round area. An output dial allows me to adjust the brightness of the background.
 Staircase is homemade, and has roller skate wheels underneath to make it easy to move around the camera room. The wheels still have the \$1.00 price tag written on them at a yard sale.
