

Bride and Groom in the sanctuary

Camera...Canon 20D
 Lens....Tamron 28-200 F4-5.6
 Camera mode....manual
 Flash..Metz 45CL-4....F11
 Lens Aperture....F8
 Shutter speed...8th
 ISO....400
 Image format...Canon Raw converted to jpg
 Focal Length 125
 Tripod...yes
 Time of day...NA
 Artwork applied...none
 Lab output....40x60, 11x14

Notes:

Flash is set on a lightstand, and lowered down behind the bride and groom, and turned up one stop over what your lens aperture is set at to purposely blow out the floor and pews.

Dragging the shutter out to an 8th of a second brings up the background.

Flash is fired with a Pocket Wizard Radio Slave.
