ISO....400
Image format...Canon Raw converted to jpg
Focal Length 150mm
Tripod...no
Time of day....7:45 pm
Artwork applied...vignette
Lab output....20x24

Notes:
The sun had just set in the western sky, so I had an even, soft light all over.
Using the Image Stabilization in the Canon lens, I was able to lay on my belly in the grass to get down to their level.
